

IMMUNE HEALTH PRODUCT CLAIMS

Thousands of dietary supplement products are on the market today with claims to support, improve, or boost the immune system.

Dietary supplements are not intended to diagnose, treat, mitigate, cure, or prevent any disease or condition.

Steer away from products with these types of claims.

**NATURAL
FLU SHOT**

**FIGHTS OFF
VIRUSES**

**BOOSTS IMMUNITY
& PREVENTS
INFECTION**

**DEFENSE AGAINST
COVID-19**

COLD BLASTER

**IMMUNE
SUPPORT**

**MAINTAINS
THE IMMUNE
SYSTEM**

Some claims are allowed by FDA. OPSS.org has evidence-based immune-health information to help you make an informed decision. Read our articles.
